# MP-S201

## Masterpiece Stereo Amplifier

### The MP-S201 is a true masterpiece in every sense of the word.

One of the first things we were told, when we introduced the ideas behind the MP-S201, was "Mission Impossible" But for the Vitus Audio team of engineers and workers such statement, is what brings out the teams enthusiasm and hereafter the hard work began.

While we maintain our "Signature" design, which we have achieved massive recognition for world wide, we have stepped it up a notch.

Special tools were needed for even considering manufacturing this +125kg amplifier and it's colossal size - as we refuse to compromise on the fact, that it is HANDMADE in Denmark.

While intended for being a stereo power amplifier, mono-mode is made available too, should bi-amping be required.

Technical keywords:

1. 4.5KVA UI transformers with <2% loss
2. 1.200.000uF capacitor bank
3. Zero global negative feedback
4. 2mm thick boards with 105um copper on all layers
5. Digital control circuitry completely separated with its own power supply starting with a separate power cord
6. Modul based for future upgradability.
7. Stillpoint Ultra 5 feet standard

For the early listeners, the imidiata reaction was, "it has no peer"

INPUT	XLR stereo	XLR mono
Available	2 (1 pr ch)	1
Sensitivity	0,7 Vrms	0,7 Vrms
Impedance	10K $\Omega$	10K $\Omega$

OUTPUT	Speaker L	Speaker R	
Available	1	1	
Impedance	75 m $\Omega$	75 m $\Omega$	
Power W (8/4 $\Omega$ )	700/1400	700/1400	Class AB
Power W (8/4 $\Omega$ )	25/50	25/50	Class A
Frequency response	+800kHz	+800kHz	
Signal to noise ratio	>130dB	> 130dB	
THD + noise	> 0,01%	> 0,01%	

POWER CONSUMPTION	
Standby	<1W
Full Power	550W <sub>RMS</sub>

DIMENSIONS	
Hight	430 mm
Width	505 mm
Depth	708 mm
Weight	125 Kg
